Review of - Deer Hunting season “this season was more of a hunting season than a shooting season”: this was due to the presence of enough forbes thanks to hard freeze that limited the growth of grass.

- Concern about the growing coyote’s population : might affect fawns’ survival rate.
- Turkey hunting: mandatory reporting

Harvests Reporting on free official app: MY TEXAS HUNT HARVEST

- 4 Doe days at Thanksgiving: lower harvest than the first 2 years.

Article of the Quarter

"I would look at the species in the mixes and see if a local farm/feed store would be able to get those species instead of buying a generic "industrialized" all-in-one type of seed mix."
