

January 2026,

Greetings community leaders,

We, the members of The Red Rock Wildlife Management Association are coming to you once again to ask you for your support of our upcoming annual fundraising event . We are a non-profit, all volunteer group of the Red Rock area of Bastrop/Caldwell Counties who strives to stabilize and support wild land for local indigenous wildlife.

Because of your strong support in the past, we will be able to award scholarships to two deserving high school students. Among other items, we provide wildlife feed at a discount to our members in the spring. We have held quarterly meetings with guest speakers offering valuable guidance to the membership.

In appreciation of your support, we recognize our contributors and promote your business through our quarterly e-newsletter and on our website for a full year. If you'd be interested in receiving a copy of this, just let us know and we'll add your email address to our mailing list.

We would hope for your continued generous financial support or items donation as we receive no additional federal, state or local funding.

Thank you for your support of \_\_\_\_\_ for our 2026 fundraising year.

If you have any questions or concerns, please don't hesitate to contact us at the Red Rock Wildlife Management Association.

Cordially,

James (Jim) Russell – President
